

# **Newsome 1000 Fruit Trees Project**

## **(Phase 3)**

**Plant an apple tree in your garden for £5**

The 1000 Trees Project is collaboration between Kirklees Streetscene Service (Parks and Open Spaces) and Newsome Councilors, funded through the Area Committee. The object of the project is to plant 1000 fruit trees across the ward. These trees will bring many benefits to the area including improved landscape quality, improved diets for locals who pick the fruit, (including improved levels of physical activity), additional wildlife habitat for some endangered wildlife species and also reduction in pollution levels.

Phase 1 involved the planting of fruit trees across Newsome Ward on council owned open green space. Phase 2 involved 60 apple trees being planted in house gardens across Newsome Ward by the householders. Phase 3 will again enable any Newsome resident to plant a fruit tree in their garden. Residents will be offered one fruit tree at the reduced price of £5. This offer will also include a tree stake, tree tie and planting/care instruction sheet. The money collected will then be used to provide plants for a proposed herb corridor along a public footpath in the Newsome Ward.

Julian Faulkner, Kirklees Social Forestry /Allotments Officer and Councillor Andrew Cooper will be at the

**Growing Newsome Seed Swap and Potato Day  
on Saturday 2nd March 2013, 10am to 1pm  
at Newsome Scout Hall**

to distribute trees and to offer advice to those wishing to take part. For further information on the Seed Swap visit:
